

TAFT MAKES CLAIM TO 570 DELEGATES

PRESIDENT SAYS NUMBER IS MORE THAN ENOUGH TO NOMINATE HIM ON FIRST BALLOT.

Expects Friendly Forces to Control Ohio Convention—Will Continue Fight in New Jersey—Cabinet Reviews Political Situation.

Washington, May 22.—Claiming that 570 delegates to the Chicago convention or thirty more than enough to secure him the nomination, President Taft in a statement today declared he was going into New Jersey "to make assurance doubly sure." He will leave Washington for Philadelphia at seven o'clock tomorrow morning and make his first political speech at Camden in the evening.

The president's statement was issued after a day of activity at the white house. Political conferences with his managers, and appointments with members of the cabinet were followed at four o'clock by a meeting of the full cabinet. It was stated later that this meeting was devoted to "routine business," but members of the cabinet admitted that the political situation had been reviewed in considerable detail.

"Our opponents quote from a statement of mine, made in Cleveland that I fight in Ohio, my home state, much to my gratification," would be a decisive one," said the president in his statement, "and would settle the question of my nomination. This is true. I shall have at least 17 votes from Ohio, including the delegates at large for we have every assurance that we shall control the state convention."

"This will constitute a clear majority in the national convention. Indeed, in addition to the votes from Ohio delegates elected for me from other states of which I have been advised since my Cleveland statement, give me at the most conservative estimate, 570 out of the 1,078 votes in the national convention—thirty more than the number necessary to nominate."

"I am going to New Jersey to take part in the coming campaign there, for the same reason that I went to Ohio, and such delegates as we may receive from New Jersey will thus make assurance doubly sure."

Earlier in the day, Director McKimley, of the Taft headquarters, claimed at "600 delegates for the president; the president's estimate while smaller was declared at the white house to represent 'rock bottom' figures, which were expected to be materially increased."

The claim to the six delegates in Ohio was made by the president after reassuring messages from his Ohio managers.

No definite claim was made by the Taft forces today to the 24 delegates to be selected in New Jersey next Tuesday.

At Roosevelt national headquarters, Senator Dixon, expressed the belief that Col. Roosevelt would carry all districts in the state and secure the full electoral college. In a statement early in the day Senator Dixon declared Col. Roosevelt would be nominated at Chicago on the first ballot.

KILLED HIMSELF AND SWEETHEART.

Young Telegraph Operator at Havana Committed Awful Crimes.

Havana, Ill., May 22.—William W. Brown, 25 years old, a telegraph operator, shot and killed his sweetheart, Miss Jennie Kelly, 17 years old, when he met her on the street last night and then killed himself with the same revolver.

Brown had quarreled with Miss Kelly because she had walked with another young man.

ATTACKS EVANGELISTIC METHODISTS

Elgin, Ill., May 22.—The Rev. W. B. Gannon, of Chicago, president of the Sunday School and Publication society, made a bitter attack on sensational and emotional evangelism at today's session of the sixtieth annual meeting of the Illinois Congregational conference. He charged that church membership for fifty years has been upheld by sensational evangelists. The Hon. C. B. Chapman of Ottawa was elected moderator and the Rev. Frank B. Hines of Albion, assistant moderator.

THE REISS SHOW COMING.

The famous Nat Reiss shows which appear in Jacksonville on the Cannon toll all next week under the auspices of the local Arie of Eagles is one of the largest aggregations of its kind traveling today and some very flattering reports concerning the character of the company have been received from Altoon, Ill., where the shows are now exhibiting. The company is composed of three hundred people and consists of twenty high class attractions, three free acts, four riding devices and a concert band of twenty pieces. They will arrive via C. & A. Sunday afternoon on their special train of sixteen cars.

INDICTED FOR FRAUD.

Chicago, May 22.—Bliss Dudley, who recently was indicted by a federal grand jury in Chicago on a charge of operating an alleged "get-rich-quick" scheme through the mails by means of an oil company, today was returned from Los Angeles. Federal authorities assert that Chicagoans lost about \$5,000 through investments with Dudley.

DIES ASSAILS PARTY LEADERS

CONGRESSMAN FROM TEXAS HAS BITTER WORDS FOR ROOSEVELT, CLARK AND OTHERS.

Says Swath of Demagoguery and Influx of Immigrants Are Menacing the Republic—Says Old Democratic Principles Have Not Been Maintained.

Washington, May 22.—In one of the most remarkable speeches of the present session of congress, Representative Dies of Texas, Democrat, today assailed Former President Roosevelt in bitter terms and referred in almost as bitter fashion to the leaders of his own party, including Speaker Clark, and Governor Wilson, to whom he alluded as "parson" Wilson. Mr. Dies assailed the crumbling of the Republic, the eventual rule of the mob, and assigned as the causes the growth of demagoguery and influx of ignorant immigrants from Southern Europe.

Tracing the history of Rome, Greece, Italy, France and down to the present day in Mexico, the Texan expressed his fervent hope that "history would not repeat itself under 'Teddy'."

He prophesied that Col. Roosevelt because his victory in Ohio yesterday "would sweep the country" in the coming presidential campaign.

"You are a pessimist," interrupted a voice on the Republican side. "No I am not a pessimist," shouted Mr. Dies, "I do not look only for the worst. Out of the jungles comes the lion tamer, his hands reeking with the blood of wild beasts. Up goes the cry 'we want Teddy, we want Teddy.' Not even LaFollette—not even Cummins—is advanced enough. They do not know the meaning of progressivism."

Mr. Dies attributed to "ignorance at home and cowardice here," his conviction that the Republic was going ahead at the present time, more and more slowly by reason only in its acquired momentum. He attacked Speaker Clark and Majority Leader Underwood for their alleged failure to sustain the old Democratic principles. In like vein and for the same reason he assailed Minority Leader Mann and Representative Dazell, of Pennsylvania for what he charged was desertion from their political faith.

"Bigger is the biggest man in this bunch," he said, referring to the lone Socialist member, who hails from Wisconsin. "He is heading toward Socialism, while you are backing away and right into Socialism."

G. A. R. MEETING OPENS AT PEORIA

Fifty-Sixth Annual Encampment Is in Progress—Chicago Working for Department Commandership.

Peoria, Ill., May 22.—The forty-sixth annual encampment of the Grand Army of the Republic of Illinois opened here today with 10,000 visitors in the city. There are 1,500 accredited delegates to the G. A. R. convention and 700 delegates to each of the six allied organizations, all of which are holding separate conventions. No session was held this morning, but this afternoon the reports of head officers were read. Chicago is making a hard fight to land the high office of department commander, the delegates working for Thomas H. Gault of Chicago to succeed Christopher Duffy of Ottawa, the present department commander.

Danville is making an effort to secure the 1913 encampment.

The encampment closes Friday night.

UNCONTESTED DELEGATES

Secretary Hayward Expects to Have List Completed May 30.

Chicago, May 22.—Secretary William Hayward of the Republican national committee today began preparing the temporary roll call of the uncontested delegates to the Republican national convention. He expects to have the list completed on May 30. It is expected that the list will contain the names of about 840 delegates.

Secretary Hayward received credentials from eight delegates at large from Missouri, elected by the state convention with half a vote each and in accordance with his recent ruling placed them on the list of contested delegates. Under the call issued by the national committee, Missouri is entitled to only four delegates at large and the national committee will pass on this, along with the other cases of double delegations when it meets to take up contests on June 6.

TO ENTER OLYMPIC GAMES.

New York, May 22.—Secretary James E. Sullivan of the American Olympic committee today received a request from W. A. Zeigler and R. A. Lang, Rhodes scholars to be entered as members of the American team in the Olympic games at Stockholm. They state that they have been training hard and have been first string men in their events for Oxford against Cambridge for the last two years. Lang is a sprinter from Oklahoma and Zeigler from Iowa, is a weight thrower. They probably will be entered by the American committee to represent America at Stockholm.

ILLINOIS DELEGATES HELD CONFERENCE

THIRTY ELECTED TO REPUBLICAN CONVENTION DISCUSS SITUATION.

Chauncey Dewey Presents Resolution Advocating Additional Instructions For Delegates—Some Opposition to Plan Develops—Deen and Sherman to Be Consulted.

Chicago, May 22.—Thirty of the 56 Roosevelt delegates from Illinois to the National Republican convention met at Chicago today and pledged themselves to vote for Roosevelt until a nominee is chosen.

A movement also was started, looking to the uniting of the Roosevelt delegates throughout the country. It was decided to ask delegations in every state to hold a conference similar to that held today and to send a representative each to Chicago prior to the convention for a conference as to what course will be pursued by Roosevelt's followers in the convention.

Thirty members of the Illinois delegation to the Republican national convention met here today and discussed the political situation. Chauncey Dewey, head of the Illinois Roosevelt league, presented a resolution advocating additional instructions to the 56 delegates already pledged to vote for Col. Roosevelt which would make them more directly responsive to any personal wishes which might be expressed by Col. Roosevelt.

The resolutions were said to cover committee action and different contingencies which might arise. Several of those present opposed the resolution, although they declared their firm intention to vote and work for the nomination of Col. Roosevelt. The session continued for several hours and it is reported that the subject will be again taken up.

Neither Governor Deen nor L. Y. Sherman, the Republican nominee for United States senator to succeed Senator Cullom, was present, and it was the wish of many not to decide on any definite program of action without the benefit of their advice.

DECLARE ACTION WAS NECESSARY

Head Officers of M. W. A. Defend Rate Increase Position—Answer Made to Petition Filed in Injunction Suit.

Springfield, May 22.—Declaring that the action of the head camp of the Modern Woodmen of America in raising the assessment rate last January was entirely legal and necessary, defendants in the injunction suit of James H. Wallace and others against the Modern Woodmen of America and its officers this morning filed an answer to the petition in the circuit court. The answer was filed by Attorney Sidney Brees of counsel for the head camp.

The answer traces the history of the fraternal organization and concludes with an assertion that without the rate increase, the order must eventually be forced out of existence through inability to meet benefit payments. Up to January 1, last, the reply points out, the order paid out in death benefits the sum of \$105,736,193.75.

At this rate of payment the defendants estimate, the organization will endure just about long enough to pay the policies of the members already enrolled and that any future membership stands a good chance to lose whatever money they pay in through the dissolution of the order.

A. R. Talbot, C. W. Hawes, E. E. Murphy, R. L. Smith, A. N. Bort, F. R. Korns, and S. S. Tanner named as defendants in the injunction suit are represented in the answer to its charges. The complainants are James H. Wallace, James M. Brown, Frank J. Koch and P. E. Taintor. The defendants also ask that the injunction be denied on the ground that if the assessment raise constitutes a breach of contract between the head camp and the membership, the latter may find a remedy at law.

SOME CHICAGOANS NOT HONEST

Say Two Vancouver Men Who Lost Their Suit Cases.

Chicago, May 22.—Folks in Vancouver, B. C., are more honest than some people in Chicago, John B. Smith and James McDonald of the former city, told the police today. Their remarks were occasioned by the fact that an unidentified person had stolen two suit cases belonging to Smith and McDonald. They left the cases in the waiting room of a station only 25 minutes while they went after something to eat.

"It would be dangerous to leave the depot unguarded that long in Chicago," the South Clark street police station desk sergeant assured them.

"Well, we could leave our baggage unguarded all night in Vancouver and nobody would touch it," said the victims.

ONE MORE BISHOP HAS BEEN CHOSEN

Methodists Have Added Dr. Luebeck's Name to Three Already Elected.

Minneapolis, Minn., May 22.—With a vote of 548 Dr. Nathalia Luebeck of Kansas City, Mo., was elected bishop of the Methodist Episcopal church on the fifteenth ballot here this afternoon. He is the fourth of the eight bishops to be elected at this general conference. Those who have thus far been elected are:

Dr. Homer C. Stuntz, New York.
Dr. T. S. Henderson, Brooklyn.
Dr. W. O. Shepard, Chicago.
Dr. L. S. Cullum, Kansas City.

Automatic retirement of bishops instead of the "Guillotine" method so termed by Bishop David H. Moore, by the vote of the general conference was advocated to day in the report of committee on Episcopacy. The committee recommends that a bishop, at the close of the general conference nearest his 73rd birthday be released from his obligation to travel and from residence supervision.

William Jennings Bryan, who lectured before the delegates to night in a speech before the conference to day took occasion to reiterate his statement that he was a candidate for no office and did not expect to be.

"I hope that no unfriendly newspaper," he said, "will say that I am a candidate for bishop. I am not here to mingle in the politics of your church."

He then urged all church members to get into politics for the purpose of public morality and good government.

There was no election on the sixteenth ballot, the result of which was announced late to night, P. D. Leete of Detroit, Mich., being high man with 478 votes.

MUST EXALT BIBLE.

Dr. Hobart Tells Northern Baptist Association Needs of the Church.

Des Moines, Iowa, May 22.—Declaring that the religious garment is cut, made, put on, buttoned up and brushed off by most other denominations, Prof. Alvah S. Hobart, of Crozer Theological seminary, Chester, Pa., told the Baptist ministers to pay more attention to the development of the theological side of their duties, in an address to night before the Northern Baptist convention, which opened here to day. The bible, he said, must be the creed, the standard of doctrine in the Baptist church and pulpit, in the absence of any other "standard of doctrine that anybody feels bound to accept."

"Our Presbyterian Brethren, for example, have the Westminster Catechism," continued Prof. Hobart. "Our Episcopalian Brethren have the thirty-nine articles and our Roman Catholic brethren not only require men to accept the doctrine, but teach that no man may interpret the scriptures for himself, but must go to the church for his interpretation."

"Now, I am not saying such a plan is not good. Some times it seems a little strange to turn children loose into the scriptures and tell them to make their own doctrines."

Unless the bible is exalted by us in our families and church our children will never have the steadiness of faith they should."

Sensational features are expected in the report of the special commission on home expenses of foreign missions, which probably will be submitted to the convention tomorrow. Charges of extravagance will be made, it is said.

HAS A GOOD NAME.

Chicago, May 22.—A man who said he had been in this country since 1906, appeared at the superior court clerk's office today and announced his intention to become a citizen. "Your name, please," said Morris Marx, naturalization clerk. "Themistokles Haralamopoulos Papakriakopoulos," replied the applicant.

"Ah, hum, will you spell it, please," requested Marx.

Papakriakopoulos spelled the name and then at the suggestion of Marx had it officially entered as Themis H. Kryiakos.

PASS BILL AFTER FIGHT.

Washington, May 22.—After a bitter fight the house today passed a bill placing the so-called Philippine friar lands under the jurisdiction of the Philippine government and subject to the land laws as framed for the archipelago.

HOUSE STILL IN A STRUGGLE

OBSTRUCTIONISTS SEEK TO DELAY APPROPRIATION BILLS.

Browne Defeated at Morning Session Returns to Delay Acties in Afternoon—Members Expense Bill is up to Deen.

Springfield, Ill., May 22.—Notwithstanding their complete overthrow by the house majority this morning, Lee O'Neill Browne and his house obstructionists continued their tactics of blocking legislation throughout the day and succeeded in preventing the passage of several appropriation bills, although several of the more important measures were passed without the votes of the obstructionists.

Browne served notice several times in the course of the day that he and his friends will vote for no bills until Governor Deen has indicated his attitude on the members' expense bill, passed first thing today.

The expense bill was hurried to the governor this afternoon. Governor Deen, following the regular procedure of his office, referred the measure to the attorney general's office for an opinion regarding its physical form. He will give no indication of his action on the bill until it is returned to him.

Representatives Rolin, Canada and Dennis voted with Browne in opposition to the bill appropriating \$20,000 for repairs to the state house, upon which was had the test as to whether the Browne's band could completely rock the legislative wheels. Representative Shanahan forced the issue and brought about the defeat of Browne's crowd.

In a speech that bristled with indignation he insisted the matter be settled immediately so that the people might know whether the legislature refused to pass a bill to protect the state's property.

Prospects for the submission of a proposed constitutional amendment were glimmering this afternoon when the house cast less than ninety votes for the senate resolution on the subject. Although the resolution was saved temporarily by a postponement of further condition it is doubtful if it will be called up again at the present special session as it is apparent the house members are not in favor of it.

FIRE FRIGHTENED JAIL PRISONERS

Leather and Broom Factory Destroyed at Bridewell in Chicago.

Chicago, May 22.—More than 500 prisoners in the Bridewell fought in their cells and pleaded for release while flames and smoke poured in from a fire which tonight destroyed the institutions' leather and broom factory.

The fire was less than 20 feet from the cell house. When the cries from the prisoners, locked up where the smoke was thickest, were taken up by the inmates in other quarters, including the 110 juveniles in John Worthing school, Supt. John L. Whitman ran through the buildings promising the men and boys release in case the fire spread.

The fact that the inmates had been locked in their cells for the night prevented a panic. No one was hurt. The loss was given as \$50,000.

FIGHT OPENED IN NEW JERSEY.

LaFollette Made Speeches in Two Cities—Taft and Roosevelt Begin Work There Today.

Newark, N. J., May 22.—The struggle for New Jersey's 28 delegates to each of the national conventions began tonight, when Senator LaFollette opened his campaign with speeches in Jersey City and West Hoboken. President Taft and Theodore Roosevelt will enter the state tomorrow starting tours that will touch every congressional district, and nearly every important city and town in the state.

Although Governor Wilson is the only candidate for the presidential nomination named on the Democratic ballot, his opponents inside the state have organized against him and named a complete list of delegates who will appear on the ballots as "unconstructed." The primaries will be held next Tuesday.

NEW PARTY IDEA IS NOT FAVORED.

National Manufacturers' Association Turns Down President Kirby's Plan—Oppose Judicial Recall.

New York, May 22.—The proposals of President John Kirby, Jr., at the National Association of Manufacturers that he association go on record as favoring the creation of a new national political party, was quashed by the committee on resolutions to day.

Mr. Kirby was re-elected president of the association today. A. R. See of New York was chosen treasurer and B. R. Boudinto was re-elected secretary.

Resolutions adopted by the convention favored supporting the judiciary and opposing the judicial recall discharging employees who advocate violence against employers in strike or otherwise, the open shop; the passage of more equitable rates of first and second class mail matter; a workmen's compensation act, and defeat of the Dillingham immigration bill.

LATEST FIGURES FROM OHIO

INDICATIONS ARE THAT ROOSEVELT HAS 32 AND TAFT 10 DELEGATES.

Harmon Will Have Complete Quota at Baltimore Convention—Taft and Roosevelt Forces Both Claim Six Delegates-at-Large.

Columbus, O., May 22.—According to returns in hand tonight from approximately 1,500 of the 5,192 precincts in the state, Col. Theodore Roosevelt's delegates to the national Republican convention carried yesterday's Ohio primaries by a plurality of about 25,000 votes. It now seems scarcely possible that final results from the primary roll will change the number of district delegates for either side by more than one or two. The best figures available tonight show that Roosevelt has 32 of the 12 district delegates selected yesterday and that President Taft has 10.

Although later returns on the Democratic presidential preference primary vote give Woodrow Wilson a fighting chance for one or two more delegates, the New Jersey man's exact standing will not be known for several days when belated rural returns have been secured. However, Governor Harmon is assured a complete delegates of 48 to the Baltimore convention. His lead now gives him control of the state Democratic convention which will select six delegates at large. Also, it is said, that the convention will provide for the unit rule which will force the Wilson delegates selected by district yesterday to vote for the Ohio executive. The delegate-at-large situation in the Republican party will not be known or settled until June 3, when the state convention is convened here. The Taft leaders claim that they will control the state convention and designate the delegates at large for the president. But the Roosevelt managers declared that late returns show the number of Taft delegates to the state convention to be that the Taft-Roosevelt fight will be carried on to the floor of the state convention when the final struggle in Ohio will be made for the delegates at large.

Even in the matter of district delegates an official count will be necessary to determine exact results. An instance of this arose today in the thirtieth congressional (Sandusky), where late returns indicate that the district will be divided almost evenly between Taft and Roosevelt delegates and Harmon and Wilson.

Early figures gave the two delegates in this district on the Republican ticket for Taft. Col. Roosevelt may now get one of the delegates and thus increase his total of district delegates to 33. This would leave Mr. Taft nine delegates.

The trend of the late Democratic returns, which indicate that Wilson has carried the first and second districts has developed a peculiar situation in the Cincinnati end of the state. Wilson, possibly because it was Gov. Harmon's home territory had no candidates for delegates in those districts and hence his unexpected strength will give him nothing more than the expressed approval of the voters in the districts. Governor Harmon gets the delegates from these districts.

FREIGHT HANDLERS ORDERED OUT

President of International Brotherhood Seeks to Compel Railroads to Make Settlement.

Chicago, May 22.—Freight handlers in sections of the country south and northwest of Chicago today were ordered on strike by P. J. Flannery, president of the International Brotherhood of Railway Freight handlers, and the men in lake steamship lines may be called out tomorrow. No word was received tonight to indicate whether the orders would be obeyed. Flannery said tonight that his action was the result of the refusal of general managers of railroads here to make a settlement with the striking freight handlers. This call, he further said, was intended to affect men in houses where freight is handled in large quantities by roads entering Chicago.

St. Paul, Minneapolis and New Orleans are the main points affected by the strike order, but none of the men has struck in these cities as yet.

Only part of the freight handlers on the steamship lines are members of the brotherhood of railway freight handlers. Others are members of longshoremen's union and they will not be affected, should a strike order be issued for men working on the lakes.

CHILD MYSTERY UNSOLVED.

Port Lodge, Ia., May 22.—The mystery surrounding the disappearance of the 2-year-old child of Mr. and Mrs. Hugh Marlow of Lone Rock, Ia., May 12, still remains unsolved. The story that a man who had confessed to killing the child by running it down with his automobile had killed himself in Richmond, proves to have been without foundation.

WILL INSIST ON LORIMER VOTE

SENATOR LEA GIVES NOTICE MATTER MUST HAVE EARLY CONSIDERATION.

Telegram From Illinois Senator Says He Is Anxious to Have Matter Disposed of But Too Sick to Be in Washington Now—Physicians Letter Is Read.

Washington, May 22.—Senator Lea of Tennessee, minority member of the Lorimer investigating committee, gave notice in the senate today that the minority would insist upon an early consideration of the resolution involving Senator Lorimer's right to his seat.

"It is a question of the highest privilege," he said, "and we shall demand that it be kept before the senate until a vote is reached."

Senator Cullom presented a letter from Mr. Lorimer's physician saying that the senator's health was such that he could not be present at this time and also a telegram from Senator Lorimer to the same effect. Mr. Cullom said he had no interest in the matter beyond seeing that his colleague was fairly dealt with. In his telegram Senator Lorimer said he did not want unnecessary delay.

"I am more anxious than anybody else could be to have the matter disposed of," he added. "But I think I should have the privilege of being in Washington when the date to vote is agreed upon and during the consideration of my case in the senate."

Dr. S. R. Shaysmaker, Senator Lorimer's physician, said in his letter to Senator Cullom, that Mr. Lorimer was improving but that he had very little reserve strength and to come to Washington at this time would be an arduous task.

Senator Lea said that at present there was no intention to ask that a date be named for a vote, nor, he added, would the presence of Mr. Lorimer be necessary when such a request is made.

RED MEN TO MEET IN JACKSONVILLE

Convention of 1913 Will Be Held in This City—Resolutions of Praise and Appreciation for Delaware Degree Team.

The Great Council of I. O. R. M. will meet in Jacksonville in 1913. At the business session Wednesday the Illinois Red Men voted to come to this city for their next convention. This news will be gladly received as the coming of the many members of this order to Jacksonville will be an advantage in a business way and not only that, but this city prides itself upon its record as a convention city. Mayor Davis, Great Keeper of Wampum J. F. Brennan, all local members of the order, and other citizens who formed the "booster crowd" are to be congratulated upon their success.

Too high compliments could not be paid the Delaware degree team for the superior manner in which they put on the work at the convention in Springfield. The team received many high words of praise from officials and delegates and the following resolutions were passed, expressing the appreciation of the convention:

Whereas, The various tribes of the Improved Order of Red Men, in Chicago, Ill., had united for a joint adoption of a large class of pale faces who had been found in the forest, and

Whereas, The degree team of Delaware Tribe, No. 78, of Jacksonville, Ill., through the courtesy of W. B. McFarren, Great Sachem of the Great Council of Illinois, and Past Sachem George W. Davis, captain of Delaware Tribe degree team, visited the hunting grounds of Chicago in Plant Moon, G. S. D. 421—April, 1912—and exemplified the degrees of the order in the presence of hundreds of Chicago Red Men, therefore, It is Resolved, That the central committee, on behalf of the entire membership of the order in Chicago, extend its heartiest thanks to the degree team of Delaware Tribe for the work so fittingly and magnificently exemplified and assures the team that its visit has been like a benediction to the Red Men of Chicago, arousing new interest in the work, kindling unflagging zeal in the cause of Red-manship and creating an enthusiasm that will work fraternal wonders.

Resolved, That a copy of these resolutions be suitably engrossed and framed and present the degree team of Delaware Tribe at the Great Council session in Springfield, Ill., in Flower Moon G. S. D. 421. J. A. Kapps, Chairman. Henry E. Nothomb, Sec. W. E. Stovers, Treas.

Jacksonville Wins Out For State Pow-wow Organization. Condemns Legislature For Refusal to Use State Building.

Springfield, Ill., May 22.—After selecting Jacksonville as a meeting place for 1913, the Illinois Red Men today adopted a resolution condemning the state legislature in no uncertain language for barring the delegates attending state conventions in this city from utilizing the legislative halls as a meeting place. The resolution was couched in such language that the meaning could not be mistaken. It was a severe denunciation of the state lawmakers for excluding the people from all parts of the state from making use of halls maintained by the state, when they are visiting at the state capital.

Another resolution was adopted at the final session of the great council of the state organization which provides that all the stationary used by the great council must bear the union label. The issue was introduced by the advocates of union labor, members of the great council, and following considerable discussion.

The following great chiefs were appointed:

Great Sannap—John Roberts, Paris.

Great Mischewina—Robert Steer.

Great Guard of the Forest—Dr. W. C. Hovey, Nokomis.

Three trustees of the state organization were elected as follows—Dr. A. B. Capel, Shawneetown; W. P. Aldridge, New Haven and H. G. McDonald, Bushnell.

EXERCISED NO INFLUENCE.

New York, May 22.—Interlocking directors between the United States steel corporation and numerous railroads exerted no influence to prevent the McClintock-Marshall construction company, an independent bridge concern, from securing contracts to build railroad bridges according to testimony given today by C. D. Marshall, president of the construction company, in the hearing of the suit to dissolve the United States steel corporation under the Sherman anti-trust law. On cross-examination, Mr. Marshall, named over a score of railroads, some of whose directors are directors of the United States steel corporation, for which his concern had built bridges. In most cases he said, the American bridge company, a subsidiary of the "steel trust" had compelled against his concern for the contract.

WOMEN AID IN SLAUGHTER.

Los Angeles, Calif., May 22.—A letter received today by Dr. Geo. A. Ferraz of this city, from an American newspaper man in Mazatlan, says that at Mazatlan, the women helped the rebels under Guerrero, who had attacked the town. Seventy-four rebels were killed.

Rurals killed thirty bandits at Mocorito, the writer says, "and the other day rurals from Durango slipped into Sinaloa and killed the Quintero brothers, so-called bandit leaders, and 36 of their men, and recovered a portion of the Culiacan loot. Sixty-five prisoners were shot."

"On May 12 the federals sent out forty men to bring in Justo Tirado. Ten came back."

NEWS OF ATROCITIES.

Mexico City, May 22.—Federal soldiers who participated in the fight at Tres Marias near Cuernavaca two days ago, brought to the capital today news of atrocities committed by Zapatistas on several of their number who were taken prisoners.

They were bound and thrown into burning buildings. A woman camp follower with a child in her arms was said to have suffered a similar fate. About 100 men of the second regiment mutilated today at Tlaximallan, 35 miles southeast of Mexico City, according to reports reaching here this afternoon. Of these, it is said, only a small number have been captured and they have been summarily executed.

SPEAKERS MENTIONED TO SECOND "T. R. S." NOMINATION.

Washington, May 22.—Speeches according to the nomination of Theodore Roosevelt for president will be made in the Chicago convention by Governor Hiram Johnson of California; Henry Allen of Kansas, a delegate at large from that state, and Senator Clapp of Minnesota, according to information given out here tonight by close friends of Col. Roosevelt. It is understood that several speakers from the middle and eastern states are also being considered for speeches to second the nomination.

PECULIAR SITUATION.

Columbus, O., May 22.—The trend of the latest returns, which indicated that Wilson has carried the first and second districts, has developed a peculiar situation in the Cincinnati end of the state. Wilson had candidates for delegates in the second district and returns show that these were beaten. The Harmon delegates were unopposed in the first district.

TO DEVELOP ALASKA.

Washington, May 22.—The first step towards committing the government to another great engineering work was taken today when Representative Sulzer, Democrat, New York, introduced a bill providing for the organization of an Alaska commission. Its chief purpose would be the railroad and mineral development of Alaska, and the bill provides for the utilization of the equipment now being used in completing the Panama canal.

HOLAND WITNESS

AGAINST ARCHBOLD.

Declares He Fought the Judge and the Railroads Because of a Little Girl's Memory.

Washington, May 20.—With trembling voice, W. P. Holand of Scranton, Pa., leading accuser of Judge Robert W. Archbold, of the commerce court told the house judiciary committee today that the memory of his little girl had led to fight the railroads and Judge Archbold.

About 1904, he said, his family was blessed with a little girl and she was named Marion. The Marion Coal company, of which he is president, received its name from the little girl, who is now dead. During the day he had told of what he designed as a conspiracy of railroads to get hold of his coal company property and of their alleged using of Judge Archbold for that purpose.

"I didn't like to see the world failure written over that name," testified Holand. "I could have made money in other business, but I have lost money to save it."

Holand testified that Attorney George Watson of Scranton had told him that Judge Archbold could influence two other judges in the commerce court in favor of the railroads.

"Did he give you their names," asked Attorney Worthington.

"Yes," replied the witness. He offered to communicate the names. Instead he was directed to whisper

them to Attorney Worthington and Acting Chairman Floyd.

The committee adjourned until Monday without completing Holand's cross-examination.

While employees of the municipal court were working ceaseless in the heat, a check for \$1,402.50 was received in the clerk's office from the Chicago Railway company in payment of fines imposed by Judge Blake for running cold cars last

winter.

DEATHS AND FUNERALS

Wood.

Another familiar figure to many in the east part of the county will be seen no more. David Wood passed away at his home near Pisgah Wednesday at 12:15 p. m. after an illness of five or six months. Death came as relief from long suffering, yet been named.

Few men were better known than he in the east half of the county and he was not unknown to many in other parts of Morgan county. He was a man possessing a jolly disposition and was always ready for a harmless joke or a good laugh. He was 75 years old at the time of his death. He is survived by his wife, three sons, Ballard of Macoupin county, Samuel of Kansas City, Richard of Jacksonville and one daughter, Martha, at home.

Dr. Short's history of the county has the following biography of the deceased.

David Wood, a prominent farmer of Morgan county, residing on section ten, township 14, range 3, was born April 4, 1837, on his father's farm within three miles of his present home, the son of Samuel and Martha (Moore) Wood. His paternal grandfather was a native of Virginia, was reared on the James river, and married his first wife in that state. Leaving Virginia he located in Hart county, Kentucky, and moved to Madison county, Illinois, where his wife, Celia Gregory, nee Wood, died. He there married as his second wife Hattie Conley, and later leaving Madison county, removed to Morgan county, Illinois, and settled down to farming on the Mauvalsterre where he entered 100 acres of land which in after years he sold to his son Samuel. He died in June, 1865, in his eighty-seventh year, his wife Hattie having preceded him five years.

Samuel Wood, son of the preceding, was a successful farmer and business man. In 1874 he was elected a representative in the state legislature from Morgan county and also served one term as an associate judge of the county commissioners' court. He became one of the most extensive cattle grazers and dealers in the county, grazing from 1,000 to 1,500 cattle annually, and at the time of his death left an estate of 3,000 acres of land and \$75,000 in cash, accumulated by his own enterprise and business ability without capital to start with. On January 5, 1832, he married a widow, Mrs. Martha Smith (nee Moore), who was a native of Kentucky, and daughter of a pioneer settler of that state. She had two children by her first marriage, viz: Grandison and William H. Smith. By this marriage Mr. Wood had eight children born to him, James of Jacksonville, Elizabeth, who died, aged 9 years; David, who died in Springfield, Ill., in April, 1902; Iven George, Julia, the wife of James Beckman, residing near Jacksonville, Ill.; Samuel Wood was an enterprising, public spirited citizen and consistent member of the United Baptist church which was organized in 1830 and which he joined in 1850. He died Aug. 27, 1888, his wife having died in 1887.

David Wood was reared to farming and after attending a subscription school at the age of 19, began farming on his own account on a quarter section of land given him by his father and which constitutes a part of his present farm of 287 1/2 acres. It is a well improved farm, possessing all modern improvements, a good residence, outbuildings, shade trees and fruit, and well cultivated fields. Mr. Wood was married Nov. 1, 1855, to Eliza E. Godbey, whose father was a native of Virginia, and moved to Illinois in September, 1830, settling near Petersburg, Menard county, where he engaged in farming. Mrs. David Wood died June 5, 1896, leaving four children, Ballard H., Samuel, Richard R. and Martha S. In January, 1901, Mr. Wood took for his second wife Durilla Sampson (nee Boyer), who has one son, John W. Sample. Mr. Wood has served his district on the school board, for four years, has been justice of the peace, and is a member of the Primitive Baptist church. In politics he is a Democrat and attends the county conventions of his party.

The funeral will be held at 2 o'clock Sunday afternoon from the Union Baptist church, near Pisgah.

Interment will be in the cemetery near the church.

Watt.
Henry Rustemeyer received a telegram Wednesday afternoon announcing the death of his brother-in-law, Joseph Watt, who passed away Tuesday morning at his home in St. Louis, after an illness with leakage of the heart. He was preceded in death by his wife who died two months ago, and one daughter, Mrs. Leha Berry, died one year ago Tuesday. He is survived by one daughter, Mrs. Lizzie Holeman, and four grandchildren.

Funeral services will be held from the residence in St. Louis, Friday afternoon at 2 o'clock. Henry and Fred Rustemeyer and Louis Pieper of this city expect to go to St. Louis to attend the funeral.

Enke.
The funeral services of Mrs. Johanna Enke were conducted from the Lutheran church in Meredosia, Monday afternoon, in charge of Rev. P. A. Soerensen. Music was furnished by Mrs. Leah Weghoff, Mrs. H. D. Berger and Joseph Schmitt.

The flower girls were Misses Bertha Schilleker, Ethel Berghaus and Ella Rausch. Interment was made in the Oakland cemetery and the bearers were William Duvendack, Chris Hagedorn, George Rausch, Henry Bisse, August Schroeder and Mr. Barth.

Mrs. Johanna Enke was born August 22, 1827, in Germany, and was 84 years of age at the time of her death. She was married in 1853 to Charles Enke of Germany. He was a stevedore by trade. While working on a very dangerous part of a building his foot slipped and he fell to the ground, meeting death. The mother with the five children came to America in 1871, first settling at Naples, and later moving to Meredosia. She has resided in Meredosia all her life except for five years she kept house for her son in Kansas. She was a woman of strong christian faith and of beautiful character.

Y. M. C. A. EDITED PAPER.

Publication Issued by Local Association in 1875 Contains Much of Interest—Advertisements Suggest Business Changes.

J. B. Mauzy has left at the Journal office a copy of "Work," a four page paper published by the Jacksonville Y. M. C. A. in 1875, the year after the organization of the association in this city. The paper contains much of interest and of value. At that time the Y. M. C. A. had rooms at Temperance hall over Day & Stebbins' jewelry store and the officers were as follows: H. Armas Gilman, president; Robert D. Russell, vice-president; C. August Catlin, corresponding secretary; J. Walter Bachforth, clerk; Thomas J. Hook, treasurer; Robert C. Bruce, Charles H. Catlin, Rev. P. C. Cooper, Seth Gardner, Byron Gray, Henry Higgins, S. C. Ireland, Rev. R. L. Lexington, S. W. Nichols, J. M. North, J. T. Nunes, J. M. Patterson, J. V. Read and H. B. Smith, directors. The purpose of the paper is set forth in a brief editorial as follows:

"Work" is published under the auspices of the Y. M. C. A. as their organ and for free distribution throughout the city and county. We issue of this initial number ten thousand copies and our business men whose advertisements have been inserted in order that all the expense of the publication might be met, will find themselves repaid and believe liberally repaid for their investment. If the paper meets the end in view in establishing it, namely the infusing of a spirit of work, for the Master into the souls of those into whose hands it comes and helps to make the association become a power for good in this community it will be issued regularly, probably once a month."

Some splendid material is found in the paper. The editorial committee was composed of C. M. Eames, R. D. Russell and John H. Woods. Among the advertisers were R. D. Durfee & Son, dry goods; Hackett & Co., clothing; L. L. Farbank, farm implements; A. V. Codman, photographer; Melton & Voss, grocers; Robert D. Russell, attorney; S. Carky, upholsterer; Mathews & Shaw, plumbers; Eames, Ward & Bro., book sellers; Johnson & Sons, furniture; Joseph Tomlinson, clothing; Burrows & Brown, pianos; T. J. Hook & Co., dry goods; Goltz & Read, men's furnisiers; Metcalf & Fell, dry goods.

LEBOUR MAKES STATEMENT
Berlin, May 22.—At today's session of the Reichstag the Social Democratic leader, George Lebour, in referring to the Emperor's recent threat that he would incorporate Alsace-Lorraine into Prussia declared:

A people like the English would in a parallel case, either have smothered the threat or have combined a monarch making such remarks in some quiet castle in the same way as has been done to the Mad King of Bavaria and Ex-Sultan Abdul Hamid.

Dr. Von Bethmann-Hollweg, the imperial chancellor, answered, declaring that the nation which was devoted to the emperor would know how properly to resist such attacks.

As "Ed" Howe Sees Life

How you wonder at the popularity of the man you hate! You wonder that decent people even speak to him.

Superstition is like idealism; we all know better, but we all have a touch of it.

I am always trying to do something that I can't do, and worrying over failure.

No difference how clean a man keeps a house when his wife is away, when she returns, she says: "This house is a sight!"

If you succeed in attracting public attention, at least half of those who see you, will laugh at you.

REPORTS SHOW ACTIVE SERVICE

Facts About Board of Publication and Sabbath School Work Are Told General Assembly.

Louisville, Ky., May 22.—A year of earnest service filled with educational, missionary and business activity was reported by the board of publication and Sabbath school work before the general assembly of the Presbyterian Church in the United States of America today.

Of the department of Sabbath school and missionary work, the report says in part:

"The number of Sabbath school missionaries in the field, for longer or shorter periods, was 139, besides 23 colporteurs whose attentions were given entirely to the violation of foreign settlements. Following the missionary policy of their respective Presbyteries, our missionaries have organized 651 new schools and received 242, making a total of 893, to which they have gathered 30,395 persons of whom 3,966 were officers and teachers and 27,237 were pupils. More than 2,500 mission schools not yet self supporting, have been added during the year. Reports received from our missionaries show 2,455 Sabbath schools under their care, with a membership of 112,242. During the year 26,291 volumes and 9,636,635 pages of religious tracts have been distributed; besides 6,561 Bibles and Testaments, of which 3,677 were in foreign languages. Reports from the field show that 58 new churches have grown out of mission schools, and 1,000 new missionaries during the previous year. Of these churches 78 are Presbyterian and 20 are of other denominations. Our missionaries have assisted in the erection of 61 Presbyterian chapels and house of their new organizations. The value of these buildings is \$126,850.

About 5,500 Sabbath schools used our Children's day supplies last year, over 800,000 copies of the program and supplement having been distributed. Of the Rally day program 303,000 were distributed among 2,300 Sabbath schools. The total offerings from Sabbath schools last year is \$87,975. Contrary to our expectations, we are obliged to report a decrease of \$4,159.37 in the total contributions received during the year. A gratifying increase is noted in the congregational offerings, but a decrease of \$5,790.60 in the Sabbath school offerings on Children's day and Rally day more than offset this gain, and caused us to close the year with a debt of \$4,252.11."

Of the business of publication the report states in part:

"There have been published during the year 4,352,314 copies of books and tracts, and 6,248,215 copies of periodicals, which, together with 8,000 copies of the annual report for the year ending March 31, 1911, make an aggregate of 70,608,529 publications for the year. The sales of books and Sunday school and church supplies for the year amounted to \$354,224. The sales of periodical lessons helps and illustrated papers amount to \$557,931.83, making aggregate sales for the year of \$911,256. The capital at the beginning of the year was \$33,141. The net profits of the past year are \$30,234. Of this sum two-thirds, or \$20,156, have been placed to the credit of the Sabbath school and missionary fund. The remaining third has been added to the capital. In addition to this, the sum of \$75,000, which represents the amount advanced by the business department in 1895 toward the purchase of the site upon which the Witherspoon building (Philadelphia) stands, has been returned during the past year to the business department out of available funds in the hands of the trustees, and placed directly to the credit of capital. The capital has, therefore, been increased by the addition of these two items to \$420,219."

There are people in this town who unthinkingly neglect a "mere cold" although they would not otherwise expose their children or themselves to danger. Yet a cold neglected may develop into contagious diphtheria, bronchitis or pneumonia. Use Pol-W. Sargent and Tar Compound promptly for its stops coughs quickly and cures colds. It contains no opiates and is safe for children. City Drug store, J. A. Obermeyer.

Hugh Sargent has been called, by telegraph, to Mound City to take a place in the clerk's office on the large, new Mississippi river steamer, "St. Paul," which is to ply on the Father of Waters this season. DROWNS IN CREEK.

John Boggs of Pittsfield Meets Death While Swimming.

Pittsfield, Ill., May 22.—A coroner's jury here to day found a verdict of death by accidental drowning in the case of John Boggs, aged 12 years, son of Mr. and Mrs. Charles Boggs of this place, who was drowned late yesterday while swimming in Painter creek, near here.

With three companions, the Boggs boy was bathing and got beyond his depth. The three other lads were unable to render any assistance and ran for help. The elder Boggs was the first person they encountered. He rushed to the creek, but was too late to save his son. The body was taken from the stream and efforts were made at resuscitation, but without avail. The boy was an only son and the parents are prostrated by his death.

Woman's World

Italia Garibaldi, Granddaughter of Liberator, Talks on Women.

MISS ITALIA GARIBALDI.

A representative of the Garibaldi family, which has done so much for democracy and humanity, Miss Italia Garibaldi, a granddaughter of Italy's Liberator, is in this country as a delegate to the Methodist general conference, which met in Minneapolis recently. She does not consider politics a good sphere for women, but says that other fields are wide in which women may do much. In Italy, she says, the women do not stir up so much trouble as in England and America.

"There is a national council of Italian women to which most of the first women in the kingdom belong," she said. "They meet and discuss methods by which women may be helped, but they have no rows. Personally I think women can accomplish good in many ways other than in politics."

"We have some leaders working up the suffrage ideals, but Italian women have not taken to them much as yet."

The present generation of Garibaldis is hardly less gifted than was the famous general. Miss Italia's eldest brother is General Peppino Garibaldi, who made a name for himself in South Africa while fighting on the British side against the Boers. Later on he fought against General Castro in Venezuela, and more recently still he captured the city of Juarez in Mexico, when fighting for President Madero. At present he is on a mission to Paris for Madero, although he is but thirty years of age. A second brother is fighting in Tripoli. A sister is a nurse on a Red Cross ship engaged in bringing wounded Italians from the seat of war. The father of this war-loving family is an Italian general who has fought in the armies of France and Greece, while the mother conducts a hospital at Maddalena, on the island of Sardinia.

MANKIND AWAKE.

What Some Men Are Doing For Universal Suffrage.

The Pennsylvania Federation of Labor at its eleventh annual convention, held in Pittsburgh, went on record as endorsing woman suffrage and for the first time in its history instructed its officers to work for an amendment to the constitution allowing women the right to vote.

Kansas is said to be seething with women suffrage sentiment, as evidenced by the organization of clubs all over the state. The Men's League of Lawrence is headed by Chancellor Strong of the state university, and many professors and students are among its members.

In Rhode Island the committee on special legislation has under consideration a woman suffrage bill to amend the constitution by eliminating the word "male."

The Building Trades' Council of Indiana, representing 300 men, endorsed woman suffrage at its last meeting in Indianapolis.

Notes About Women.

Mme. Knissarov of St. Petersburg died a few days ago, leaving a library containing 18,000 volumes, all written by women. This is said to be the most extensive individual collection of the kind ever formed.

One of the ardent workers for equal suffrage in the national capital is Mrs. Alice Bonomi, wife of the new senator from Ohio. During her husband's campaign in Ohio she took a great interest in the political changes and is said to be one of the best informed women in Washington.

Ohio will be the scene of general suffrage activity for the next few months or until the time of the special election, which is expected to take place in mid-summer. Advocates of equal suffrage throughout the United States are rallying to the support of the women of Ohio in their campaign for the vote, under the leadership of Mrs. Harriet Taylor Upton, president of the State Suffrage association, Massachusetts.

New York, New Jersey, Pennsylvania, West Virginia, Kentucky, Indiana and Illinois have already arranged to put workers in the field, and many women from states farther west and south stand ready to respond to the first call for assistance.

Put a Detroit Jewel Gas Range in Your Kitchen

WE know from experience that there are no other gas ranges made which give anywhere near such universal satisfaction in the long run. There are other gas ranges which to the casual observer may look just as good as Detroit Jewels, but when you come to analyze them and compare each feature part by part, the value of the DETROIT JEWEL is at once apparent.

Take those Detroit Jewels for illustration. Note the general symmetry of the design, the superb construction and the excellent quality of castings and workmanship; next note the generosity of the large top, now remove the key plates which you will find are not only true and even but made for service and durability. Examine the burners which are star shaped to admit plenty of air to the points of combustion. They are so constructed that they do not warp and get out of place from the heat, a common fault with many other makes.

A Money Saver

There are three regular burners, one giant burner and one simmering burner in this stove, so that you can always secure just the degree of heat desired without waste of gas. As you open the oven door you will notice the finely designed wood-bar handle, which you can take hold of anytime without burning your fingers. The oven is exactly square, which is the most economical size in every case. The oven bottom is of cast iron, very durable, with a removable lid in the center, which makes it very convenient for boiling onions, cabbage, etc., as the odor is carried up the chimney.

**A Perfect Baker**

The oven is equipped with two separate burners, thus making it easy to adjust for either quick or slow baking. It has also a small safety burner for safety in lighting and a small mica window through which you can see the blaze.

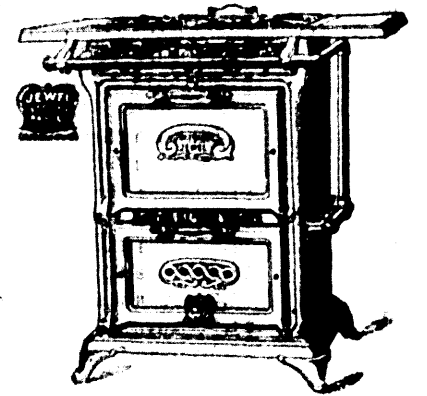

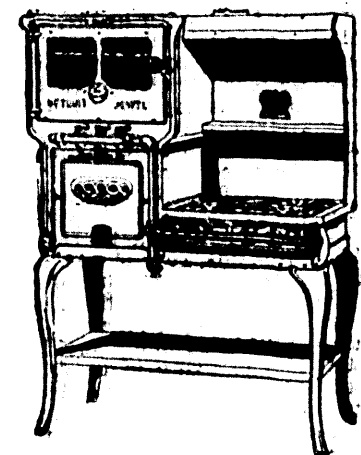

Every part of the interior, fine lining, oven bottom, etc., easily removable for cleaning, having no bolts or screws to hold them in place. The supply pipe is larger than on most stoves, and will furnish enough gas for all the burners to be used at the same time. You do not always think of this when buying, but it is a very important feature when you need it.

They are by all odds as perfect gas ranges as it is possible to buy. We would like to send you one of these good gas ranges on trial and if after you have used it a short time it is not satisfactory in every respect we will gladly take it back and refund your money.

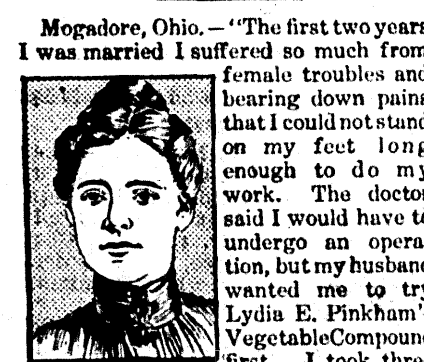

Don't fail to see our new model with high oven and glass door showing the operation inside the oven.

How She Was Saved From Surgeon's Knife by Lydia E. Pinkham's Vegetable Compound.

Mogadore, Ohio.—"The first two years I was married I suffered so much from female troubles and bearing down pains that I could not stand on my feet long enough to do my work. The doctor said I would have to undergo an operation, but my husband wanted me to try Lydia E. Pinkham's Vegetable Compound first. I took three bottles and it made me well and strong and I avoided a dreadful operation. I now have two fine healthy children, and I cannot say too much about what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. LEE MANGES, R. F. D. 10, Mogadore, Ohio.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

OUR GREATEST GENERAL

Did You Know He Lives in Jacksonville?

Tuesday Rev. Hy S. Alkire was the only one who spoke to the pupils at the Lafayette, Second ward, school and all he addressed were those on the upper floor, so yesterday S. W. Nichols was requested to talk to the little folks down stairs, which he did. He had two audiences, as many as could be accommodated in one room in each case, and endeavored as well as possible to give the children some idea of the civil war, its lessons and history.

Wishing to impress on the children the services of some of the great men he asked a number of questions regarding the heroes of those days and received some very intelligent answers, but one little fellow took the premium.

"Who was our greatest general and for a while commander-in-chief of the union armies?" was a question asked.

Quick as thought a little fellow replied:

"Captain Smith."

Now we all know the gallant captain's inherent modesty but he certainly will be pardoned if he puts on just a bit of airs after such a send off and it would not be at all out of place for him to don a blue coat with correct shoulder straps indicating his rank and all veterans are respectfully asked to give him a proper salute as he appears on the street.

A PLEASANT-OUTING.

Yesterday morning, the little folks of the kindergarten, numbering 32, had a very delightful outing, accompanied by their teachers, Miss Charlotte Popper, Miss Mabel Bartholomew and Miss Blanche Watson.

Boarding the south bound street car they spread their sails for Nichols Park and there were turned loose to have as good a time as they might. The play ground, the monkeys, and birds, the lake and all else were sources of delight to the children.

Well filled baskets of good things were duly discussed and at an hour which came all too soon the youthful merry-makers started for town well pleased with the day.

John Johnson of Arendia was a business visitor in the city yesterday.

BOYS STUDY FARM METHODS

Practical Work in Agriculture Is Provided at St. Charles Home.

How Illinois is aiding the "back to the farm movement" among a class of boys whose regeneration is possible in the wholesome atmosphere of the country, is vividly told in the following report of A. L. Bowen, executive secretary of the State Charities Commission, of a visit he made to the St. Charles School for boys at St. Charles.

The report says:

"The back to the farm movement is receiving an impetus among the boys at this institution.

"The very boys who most need it are getting the instruction and undergoing the experience, which, it is hoped, will direct their energies towards agriculture, dairying and horticulture.

"The land the state owns at this institution consists of 922 acres. Seventy-five acres are occupied by buildings and grounds, fifty-five are in timber; all the rest is under cultivation. That under cultivation is divided into four farms. A redoubt is to be made as soon as two new farm cottages have been completed, making six farms. Each farm is complete in itself. It has its residence, in which the house father and mother and twelve or fifteen boys live, the barns, dairy, the poultry. The farm is divided into fields for grain and gardens for the vegetables and fruits. Strict account of the costs of each farm is kept so that at the end of the year it is known what it has expended to produce its corn and other grains and to raise its stock.

"The nucleus of buildings on each farm was there when the state bought the property. Since then many improvements have been made mainly by boy labor, upon the out-buildings. The last General Assembly made an appropriation of \$12,000 with which to rebuild and enlarge the four farm houses and of \$25,000 with which to erect two new ones.

"All this work is to be done by the boys under civilian employ supervision. It has commenced on two

of the old cottages. Each cottage will be heated by hot water furnace, provided with shower baths, hot and cold water throughout, acetylene gas; sewerage through septic tanks into the general institution sewer.

"In addition to the small farm centers there is the general center, where will be found the institution dairy, the silos, the horse barns and the main feeding pens.

"The new farm cottages, which cannot be erected until next year, will have accommodation for twenty boys each.

"But farming is not the only industry in which practical training is given.

"The following are the trades taught: Painting, printing, carpentering, typewriting, horticulture, blacksmithing, shoemaking, plumbing and steam fitting, electrical working, confectionery, baking, laundrying, steam engineering, including firing, cooking, tailoring.

"The school does its own printing, makes all its shoes and harness and does all its leather repairing, lays all its concrete work, including walls and walks, does its own cooking, baking, tailoring and blacksmithing.

"Short-hand and telegraphy are to be introduced as soon as the population has increased so that there will be enough boys desiring them to make a class."

BIG OFFER TO CORN.

Ogden, Utah, May 22.—The Weber club, the commercial organization of this city, has sent Tyrus Cobb of the Detroit Americans an offer of \$10,000 to manage the Ogden team in the Union association league during the present season. The Weber club has just obtained the local franchise.

CARPENTER DEFEATS LEWIS.

Paris, May 22.—Geo. Carpenter, the middle-weight champion of England and France tonight defeated Willie Lewis the American middle-weight pugilist on points. The fight went twenty rounds.

A. J. Ward enjoyed last evening a brief visit from his son Earl, who was passing through the city to take an important position in the northern part of the state. The young man is making good beyond all question and his services are much in demand.

What's The Matter With Your Baby?

The young mother—and many an old Mrs. Ona Hawkins, Woodlawn, Indiana, one, too—is often puzzled to know the cause of her child's ill nature. The loudness of its crying does not necessarily indicate the seriousness of its trouble. It may have nothing more the matter with it than a headache or a feeling of general dullness. It cannot, of course, describe its feelings, but as a preliminary measure you are safe in trying a mild laxative.

Nine-tenths of ten, you will find it is all the child needs, for its restlessness and peevishness are perhaps due to obstruction of the bowels, and once that has been removed the headachy, the sluggishness and the many other evidences of constipation and indigestion will quickly disappear.

Don't give the little one salts, cathartic pills or nasty waters, for these will act as purgatives, and they are too strong for a child. LITTLE CHILD INJURED.

Son of Mr. and Mrs. James Rice suf-
fers Broken Leg.

Walter Rice, Jr., the four year old
son of Mr. and Mrs. James Rice,
who reside on the Mound road, had
the misfortune to fall from a corn
planter Wednesday afternoon, in
such a manner as to crush his ankle
and cause a compound fracture of
his right leg.

The little fellow had been taken
to the home of his grandfather, Wal-
ter S. Rice to spend the day. When
the men went out to the field to
plant corn, he went along, he climb-
ed up on top of the planter, and
while it was in motion he fell, his
foot catching in one of the chains.
The whole foot was badly smashed,
especially the heel and ankle and
there was a compound fracture of
the right leg between the ankle and
knee. Dr. Virginia Dinmore was
called and gave the necessary medi-
cal attention and while the accident
is painful no serious results are an-
ticipated.

Mr. and Mrs. John Harvey, resid-
ing in the southwest part of the
county, were in the city yesterday.

FACE AND SCALP SORE.

Result of Neglected Eczema—This
Is Preventable.

Try This Remedy at Our Risk.

Failure to treat eczema of the face

early, or the wrong kind of treatment

almost certainly results in spreading

and aggravating the complaint.

We have seen cases where the face

and scalp had become one continuous

sore, due to the violent itching and

scratching.

Fortunately this need not happen

now, for our new remedy, Saxon

Salve, allays the itching so that

the skin is no longer lacerated by the

finger nails. And it sinks into and

saturates the skin so thoroughly, and

is so wonderfully healing in its na-

ture that it kills all germ life in the

skin and promotes a speedy cure.

All who have a skin affection of

any kind, eczema, barber's itch, ivy

poisoning or any eruption, can try

Saxon Salve at our risk and if the re-

sults are not wholly satisfactory we

will give back the money. Lee P. Alcott,

NEW LIQUOR LAW IS PROPOSED

City Attorney Haingrove Has Pre-
pared Measure He Thinks Should
Take the Place of One Recently
Declared Null and Void—Club-
Room Provisions Stringent.

An ordinance covering violations
of the liquor law in Jacksonville has
been prepared by City Attorney W.
N. Haingrove and copies are in the
hands of the mayor and commission-
ers. The ordinance was prepared
from the fact that it was shown in a
recent trial that the city is abso-
lutely without an ordinance on the
subject. This condition arose from
the fact that the last ordinance
adopted replaced the earlier ordi-
nance and in turn was declared in-
valid because of a certain omission
in the wording of the law.

The proposed ordinance is com-
prehensive and the evident purpose
of the city attorney has been to
incorporate all conditions for the
law enforcement which are desired
to be effective under the local regu-
lation law. The club-room provisions
are of particular interest.

Be it ordained by the City Council
of the City of Jacksonville, Illinois:
Section 1. That whoever shall,
by himself either as principal, clerk
or servant, within the corporate
limits of the City of Jacksonville, di-
rectly or indirectly sell, keep for
sale, barter, exchange, give away,
in any manner dispose of, or take an
order, or make an agreement, for
the sale or delivery of, any intox-
icating liquor, or spirituous, vinous,
malt or fermented liquor, or any
mixture of any of said liquors, or any
drinks which contain any spirituous,
vinous, malt or fermented liquor in
any quantity whatsoever, shall be
fined not less than twenty-five dol-
lars (\$25.00) nor more than two
hundred dollars (\$200.00) for each
and every offense.

Section 2. Whoever shall, within
said corporate limits, directly or in-
directly, keep or maintain by him-
self or by associating or combining
with others, or who shall in any
manner aid or abet in keep-
ing or maintaining any club, or any
other place in which intoxicating
liquor or spirituous, vinous, malt, or
fermented liquor or any mixture of
any said liquors, or any drinks
which contain any spirituous, vinous,
malt or fermented liquor in any
quantity whatsoever, is received or
kept for the purpose of use, gift,
barter, exchange, or sale as a beverage,
for the distribution or division among
the members of any club or associa-
tion by any means whatever, and
whoever shall use, barter, exchange,
sell, or give away, or assist or abet
another in bartering, exchanging,
selling or giving away any intoxicat-
ing liquor or spirituous, vinous,
malt, or fermented liquor, or any
mixture of any of said liquors, or
any drinks which contain any spirituous,
vinous, malt or fermented liquor in
any quantity whatsoever, shall be
received or kept, shall upon convic-
tion thereof, be fined not less than
twenty-five dollars (\$25.00) nor
more than two hundred dollars
(\$200.00) for each and every offense.

Section 3. All places within the
said corporate limits, where orders
are taken or agreements made, for
the sale or delivery of any intox-
icating liquor, or spirituous, vinous,
malt, or fermented liquor, or any
mixture of said liquors, or any
drinks which contain any spirituous,
vinous, malt or fermented liquor in
any quantity whatsoever, or where
any said liquors are sold, given away,
bartered, exchanged, or in any man-
ner disposed of, or kept for sale, or
are received or kept for the purpose
of use or distribution or division
among the members of any club or
association by any means whatso-
ever, shall be taken and held and
are declared to be nuisances; and
whoever shall keep any such place
either as principal, clerk or servant,
shall upon conviction thereof, be fined
not less than fifty dollars (\$50.00)
nor more than two hundred dollars
(\$200.00) and it shall be part of
the judgment upon conviction of
the keeper that the place so kept
shall be shut up and abated by the
chief of police until the keeper shall
give bond, with sufficiently security
to be approved by the court, in the
penal sum of one thousand dollars
(\$1,000.00), payable to the said city
conditioned that he will not violate
nor permit any violation of this ordi-
nance at such place. OVIDED:
That if the keeper refuses or negli-
gently to abate such nuisance instan-
ter after being notified so to do by
the chief of police or mayor of said
city, the mayor may order any such
place summarily shut up and abated.

Section 4. It shall be unlawful
for persons to congregate in any
street, alley, public place, or any
yard, barn, shed or other building,
or in any cellar, room, or place,
or for the purpose of drinking, any
intoxicating liquor, or spirituous,
vinous, malt, or fermented liquor or
any drinks containing any spirituous,
vinous, malt or fermented liquor.

Section 5.—Whoever knowingly
permits any building or premises, or
any part thereof, within said cor-
porate limits, owned or leased by
him or under his control, to be used
within which to keep or maintain
any club-room, or other place in
which any intoxicating liquor or any
spirituous, vinous, malt, or fer-
mented liquor or any drinks which
contain any spirituous, vinous, malt
or fermented liquor is received or
kept for the purpose of use, gift,
barter, exchange or sale as a bever-
age, or distribution or division among
the members of any club or associa-
tion by any means whatsoever, or
to be used within which to sell, give
away, or to take orders for the sale
or delivery of any intoxicating li-
quor, or any spirituous, vinous, malt,
or fermented liquor or any drinks

which contain any spirituous, vinous,
malt or fermented liquor in any
quantity whatsoever, or after being
notified of such use, omits to take
all reasonable measures to eject
therefrom the person or persons so
using the same, shall be deemed guilty
of suffering a nuisance to exist
and on conviction shall be fined not
less than fifty dollars (\$50.00), nor
more than two hundred dollars
(\$200.00) for each and every day
or fraction thereof, that he shall per-
mit any such building or premises
or any part thereof to be so used.

Section 6. Whoever shall, by him-
self or another, directly or indirect-
ly, within said corporate limits, dis-
play or post, or suffer to remain dis-
played or posted, in, on, or about any
building or premises occupied by
him, any sign, or other advertise-
ment, indicating that intoxicating
liquor, or spirituous, vinous, malt or
fermented liquor, or any so-called
temperance drinks, which contain
any spirituous, vinous, malt or fer-
mented liquor, are kept or dealt in at
such building or premises, or shall
suffer any sign or advertisement of
any wholesale or retail liquor deal-
er to be displayed or posted, in, on, or
about any building or premises, oc-
cupied, owned or leased by him or
under his control, shall be deemed
guilty of suffering a nuisance to ex-
ist, and upon conviction thereof shall
be fined not less than twenty-five
dollars (\$25.00) or more than two
hundred dollars (\$200.00) for each
and every day, or fraction thereof,
he shall permit any such sign to be
posted or displayed.

Section 7. Any officer, agent or
employee of any railroad company,
express company, or other commu-
nication carrier, who, within said corporate
limits, shall knowingly deliver, or
cause to be delivered, to any per-
son other than the person to whom
it has been consigned, unless
upon the written order in each in-
stance of the bona fide consignee, or
any fictitious person, or to any per-
son under a fictitious name, any in-
toxicated liquor, spirituous, vinous,
malt or fermented liquor, or any
mixture of any of said liquors, or
any drinks which contain any
spirituous, vinous, malt or fermented
liquor, or erases or removes the
name of the consignee from any
package of any said liquor, which
has been shipped into the said cor-
porate limits, shall be fined not less
than twenty-five dollars (\$25.00)
nor more than two hundred dollars
(\$200.00) for each and every of-
fense.

Section 8. All the provisions of
this ordinance shall apply to all per-
sons and corporations, within said
corporate limits, including drugstores
and to all places, including drug
stores, except as otherwise expres-
sly provided herein.

Section 9. That the invalidity of
any portion of this ordinance shall
not effect the validity of any other
portion hereof, which can be given
effect without such invalid part.

GENERAL

CONFERENCE NEWS.

(By J. W. Miller)

The end of the conference is near-
ing and it would seem that the work
of the conference was not one-half
done. It is true that some way of
settling vital matters before the con-
ference earlier in the session it
would contribute greatly to the ef-
fectiveness of its work. From this
until the end measures will be rush-
ed feverishly that should have very
careful and thorough consideration,
while for ten days time has been con-
sumed on many matters of minor
value.

Visitors From Illinois.

Most of the wives of the Illinois
delegates are visiting the conference.
They are enjoying the sessions and
the anniversaries and the lectures as
well as the many that they meet
from all parts of the world. Among
the preachers from the Illinois con-
ference are Rev. A. A. White, Revs.
McCarthy, Madden, Bligg, English,
Reckard, Pearls, Tucker, Whitlock,
Barnes, Smith, Dr. Barker and lay-
men from a few churches.

A Most Striking Character.

There is one man who stands out
with distinction and peculiar attrac-
tion at the general conference, it is
Bishop Quayle. Whenever he is to
appear there the crowd goes. He
presides at the session of the con-
ference is added interest. The
sermon is relieved by his original
humor. It is never sarcastic, always
generous and mirthful. His lectures
are great in their originality and
power, his talks seem to be the out-
flow of an exhaustless fountain of
truth and inspiration. He is beloved
for his great generous heart. He has
a great place in the church and the
world he will have a greater place in
its admiration and esteem.

An Autocrat of The Poultry Farm

He Tried to Balk Cupid, but
Failed.

By OTHO B. SENGAL.

Josiah Preston always had been of a despotic disposition, but his natural tendency in this direction seemed to strengthen after his remunerative experiments in poultry raising.

Josiah's mind apparently held but one thought: his hens. The earth was made for the sole purpose of providing them with a scratching ground. The sun rose to give them light and warmth. Night followed day that they might have time to roost.

When Flower Preston, Josiah's only daughter, came home from boarding school and her father discovered by diligent questioning that the words incubator, brooder, trap nest, home cutter, elicited no answering enthusiasm he grunted sarcastically, "A gal that's been to boardin' school for three years and don't know a leg hand from a none cutter?"

"You must learn about things as soon as you can, dear," whispered the mother nervously. "If you can't talk poultry talk with your pa you might just as well be in the desert of Sahara."

"There's one comfort," continued Josiah. "I ain't raised the only two there is in this county."

"There, there, pa," Mrs. Preston spoke soothingly. "What is the matter?"

"Squire Curtis' boy got home from college today, and what do you think instead of studyin' now so's to help his pa he's been studyin' bugs. Four years in college and don't know a thing but bugs?"

"Maybe his pa wanted him to," remarked Mrs. Preston pacifically.

"Want," harshly. "I can't crow over Squire Curtis' none. His boy don't know nothin' but bugs, and as near as I kin figure out, that gal don't know nothin' at all. The only advantage is it took her a year less to learn it."

When young Curtis began cutting at the farm, which he did with suspicious promptness, Josiah's cup of misery was full.

"For the land's sake," he exclaimed testily to his wife, "can't you go in there and set?" Indicating with his thumb the room from which came the sound of young voices and laughter.

"You let that gal git boys and bugs later that slim brain of hers and she won't be good for nothin'."

"There, there, pa, don't talk so loud. You didn't want my ma to come in and see when you used to come to see me."

Josiah's face purpled. He clutched at his collar as if he were choking.

"You don't mean," he gasped.

Mrs. Preston nodded.

"Don't take it so hard, pa," she murmured soothingly. "Jim Curtis is one of the likeliest young men and—"

"I could stand it better if twan't for the bugs," he moaned feebly. "If he didn't want to be a lawyer like his pa, why didn't he take up somethin' sensible than bugs? What good is a bug? Bugs—millions on 'em—couldn't hatch out one chicken!"

"He's studyin' bees now, pa, and they're good for honey," appeasingly.

"He has ever so many hives, new-fangled ones—in his pa's back yard."

Josiah only growled.

"And, pa, it's all arranged, only I ain't had time to be old-fashioned enough to ask your consent, and Flower, like a good girl, said she'd never marry anybody without her pa's consent. That's a good deal nowadays, pa."

Perhaps it was because of Josiah's reputation for irascibility, perhaps because the young man felt that he could express himself more satisfactorily in writing, that his formal application for the consent of the autocrat reached Josiah by mail.

The old man read the letter several times, growling and grunting. When he rose there was a grim smile on his face and a look of determination in his keen gray eyes.

This was on Thursday. In the evening Mrs. Preston reminded him—

"Aren't you going in to see Jim, pa?"

"Dunno, he's callin' on me," testily.

"But you his letter?"

"I ain't in no hurry to answer it. I'm makin' up my mind."

A similar reminder the next evening met with like result.

But on Saturday evening Josiah did not want to be reminded. He marched into the "best room," carrying a small basket, and displayed its contents—twenty three eggs, fair and beautiful, to the astonished young person.

"There, young man," he growled, "there is my answer. Three weeks from tonight, if you bring me fourteen chickens out'n them twenty eggs, I'll give my consent."

"All right, Mr. Preston," returned the young man easily. "I shall be on hand."

"Pa Preston," cried Flower indignantly. "Jim doesn't know anything about chicken raising, and—"

"Time he did, then," sharply. "He'll have a chance to show what four years of science is good for. And any little thing he don't happen to know you can learn him," and with a sarcastic chuckle the autocrat tramped out, leaving a greatly perplexed young man and a disunited, fearful girl.

"He knows you can't do it," she sobbed. "Three weeks from tonight."

"Good thing he gave plenty of time," uttered Jim cheerfully.

"Plenty of time," echoed Flower de-

spairingly. "Why, Jim, don't you know that twenty-one days are required to hatch chickens?"

"Well, I'll buy a hen on my way home and put her right to work," with twinkling eyes.

"There's very little chance of your being able to get a sitting hen," gloomily.

"Is that a particular breed?" innocently.

"Jim Curtis! Don't you know that you must have a hen that wants to sit? You can't make one hatch eggs if she doesn't want to."

"Well, I can buy an incubator," undauntedly.

"You'd be four or five days late by the time you could order one and have it shipped here. And tomorrow is Sunday, Opa," she cried understandingly. "Pa and it all planned—that's the reason he wouldn't see you until tonight."

"I know, Flower," with sudden inspiration. "I'll make an incubator. Come out and show me one of your father's, so I may get an idea of the principles involved. Come!"

Slightly encouraged, Flower led the way. Meeting her father, she asked coolly: "Have you any objections to my showing the incubators to Jim, pa? He's going to make one to hatch those eggs."

Preston grinned.

"No objections. Not in the least. Go ahead! Show him all about em, and tell him every thing you know. 'Twon't burden his brain none. He might put the eggs into cold storage while he builds the incubator."

On Tuesday of the third week the autocrat remarked sarcastically: "I saw Jim this morning, Flower. I told him if he brought the chickens I'd announce the engagement in the county paper an' give you \$300 for wedding felleroids."

Flower set her red lips in a firm, straight line. She had not inherited all her characteristics from her submissive mother.

"Lend me your pencil, pa. I want to make out a list of wedding felleroids."

Saturday evening came, but Mr. Curtis did not appear.

"Where's the big professor, Flower?" asked her father tauntingly.

"He's wrapping the chickens up in cotton so they can't take cold," reported Flower spiritedly.

The old man smiled grimly, but the smile died away as Curtis entered the room.

"I'm a little late, Mr. Preston," he said cheerily, "but here are your birds." He handed the autocrat a fat wooden box, which the latter opened with trembling fingers. He removed a sheet of cotton, displaying a number of fluffy, sleepy, peeping chickens.

"There are eighteen," remarked Jim carelessly. "Four more than you asked for, but I put them all in for good measure."

"Them chicks didn't come out'n the shell today," he declared, with conviction.

"No," answered Jim quietly. "They came out Thursday."

Josiah gazed at him in actual consternation.

"I hope, Mr. Preston," courteously—"I hope there is no doubt in your mind that these chicks came from the eggs you gave me?"

Josiah shook his head mournfully.

"No," he said slowly. "They're all right. I know the strain."

He sat in silence pondering over the mystery.

"How doth the little busy bee improve each shining hour," suggested Curtis, smiling. "Bugs are good for many things, Mr. Preston."

The autocrat sprang up excitedly.

"Jumping gingerbread!" he exclaimed. "I'll bet a dime you hatched them eggs out in the beehive."

Jim laughed pleasantly.

"I surely did, Mr. Preston. When Flower showed me the incubators three weeks ago tonight I observed that the temperature was similar to that in my beehives. I verified this on reaching home by placing a thermometer in a hive. So I put the eggs in the upper section of the hive, separating them from the working apartments of the bees by a cotton cloth. I was positive they would hatch, but you may imagine my surprise when they began chirping the shell in nineteen days."

"I guess I'll put 'em in a brooder," said Josiah, recovering himself some what. "These chicks has cost me \$300—too expensive to be allowed up disl path' at this time in the night."

He bore the precious beepers away, muttering wonderingly:

"Bugs! Hatched by bugs! And two days ahead of time!"

Later the autocrat announced in the county paper the engagement of his daughter to the brilliant young scientist, James Curtis.

Even the Flowers have Nerves.

"Why does the saddest not put its leaf tentacles in operation when rain drops fall on them and yet is quick to capture a fly?" writes Andrew Wilson in the Illustrated London News.

The only possible reply is that the plant has learned to distinguish between contact which means food and that which implies only the needed rain. The sensitive plant (mimosa) droops its leaves on the slightest touch, but not when it is watered. Placed in a carriage, such a plant lowers its leaves at first when the carriage moves, but soon, accustoming to the motion, expands them.

You can give a sensitive plant ether and abolish its sensitiveness just as you rob the animal of its consciousness when you administer the anesthetic.

Clearly we have to revise all our notions of plant nervousness if we would explain the actions even of the daisies which shut up their petals when the wind blows and open them under the influence of sunshine.

NEW JERSEY PRIMARY.

Is Now the Battleground For Presidential Candidates.

Trenton, N. J., May 22.—With the primary elections less than a week away, when the voters of New Jersey will have a chance to express a presidential preference, the campaign is rapidly developing into one of the most vigorous political struggles the state has witnessed in years.

Colonel Roosevelt will begin a whirlwind tour of the state tomorrow. Later in the week President Taft will be heard in a number of the principal cities. Senator La Follette also is planning to stump the state.

Governor Wilson, on the Democratic side, will continue his speech making until the night before the primaries, fighting hard for the solid support of his home state.

Those who follow politics confess their inability to predict the outcome of either the Republican or the Democratic contest in New Jersey with any degree of certainty. In the Republican ranks the Taft forces and the Roosevelt followers are fighting tooth and nail every inch of the ground.

New Jersey is the last of the states having any considerable numerical representation in the national convention to elect delegates and as a consequence the two rival candidates entertain a keen anxiety to secure a victory here.

The organization forces are strong for the renomination of President

Taft, and have selected former Supreme Court Justice Gilbert Collins,

former Governor Franklin Murphy, United States Senator Frank O. Briggs and E. Wayland Ayer, the Camden county leader, as delegates to large to represent the state in the interest of President Taft.

Prominent men also are to be found in the Roosevelt camp. Among the number are former Governor Felt, who would like to receive a cabinet berth in the event of Roosevelt's election; former Governor Stokes, who also aspires to the United States senatorship; former State Senator Everett Colby and Borden Whiting, president of the New Jersey Republican Progressive league.

DON'T GROW BALD YOUNG MAN!

Take Care of Your Hair While You Have Hair to Take Care Of.

It's a safe ten to one bet that the young man who uses PARRISIAN Sage has an occasional hair dressing will never grow bald.

There's a reason, of course, and it's a very good and sufficient one.

Dandruff germs cause falling hair and falling hair means thinner hair and in due time baldness.

PARRISIAN Sage prevents baldness, by destroying the cause of baldness—the little persistent voracious dandruff germ.

If you have dandruff or itching scalp it means that dandruff germs are sapping the vitality from the roots of your hair. Get rid of all hair troubles by using PARRISIAN Sage.

It is not a dye, mind you, neither does it contain poisonous sugar of lead or even sulphur. It is a scientific preparation that dissolves dandruff, stops falling hair and scalp itch, and makes hair grow lustrous and luxuriant.

Many young women as well as men are growing bald and for the same reason.

Use delightful, refreshing PARRISIAN Sage; it nourishes the hair roots, if the roots are not dead, and brings to every user a head of glorious hair—radiant and fascinating.

Large bottle for 50 cents at drug stores and toilet counters. See that you get PARRISIAN Sage.

Coover & Shreve guarantee it.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight." There was. Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery. Recent scientific research has put its finger on the "cause" of Danduff, Fanning Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair. Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
